ANNUAL CATALOGUE

—OF THE—

SOUTHWESTERN BAPTIST UNIVERSITY

JACKSON, TENNESSEE,

For Session of 1880-81,

AND ANNOUNCEMENT FOR

1881-82.

MEMPHIS, TENN.:
ROGERS & CO. PRINTERS, 315 MAIN STREET,
1881.

BOARD OF TRUSTEES.

TERM OF OFFICE EXPIRES 1882.

C. R. HENDRICKSON, D. D.,	G. W. JOHNSTON, LL. D.,
R. G. THOMAS,	A. C. ESTES,
J. L. H. TOMLIN,	GEN. A. W. CAMPBELL,
J. M. SENTER.	

TERM OF OFFICE EXPIRES 1883.

REV. T. J. ROWAN,	Z. C. GRAVES, LL. D.,
G. M. SAVAGE, A. M.,	REV. J. B. SEARCY,
W. P. ROBERTSON,	REV. S. M. PROVENCE,
REV. R. A. VENABLE.	

TERM OF OFFICE EXPIRES 1884.

T. J. FREEMAN, LL. D.,	S. T. W. MEEK,
REV. T. G. JONES, D. D.,	P. T. GLASS,
REV. G. S. WILLIAMS,	E. F. FRIEDEL,
COL. H. B. FOLK	

TERM OF OFFICE EXPIRES 1885.

HON. DORSEY B. THOMAS,	REV. J. R. GRAVES, LL. D.,
REV. M. HILLSMAN, D. D.,	HON. JAMES O'CONNOR,
HON. R. B. HURT,	W. P. JONES, M. D.,
THOMAS NORVELL.	

TERM OF OFFICE EXPIRES 1886.

HON. DORSEY O. THOMAS,	REV. JAMES WATERS,
W. H. BRUTON,	JNO. DURHAM,
G. C. SAVAGE, M. D.,	D. W. HUGHES,
COL. W. D. DEUPREE.	

OFFICERS OF THE BOARD.

HON. DORSEY B. THOMAS, PRESIDENT,
REV. C. R. HENDRICKSON, D. D., VICE-PRESIDENT,
JAMES O'CONNOR, TREASURER,
W. P. ROBERTSON, SECRETARY.

EXECUTIVE COMMITTEE.

REV. C. R. HENDRICKSON,	G. C. SAVAGE, M. D.,
JOHN L. H. TOMLIN,	JAMES O'CONNOR,
D. W. HUGHES,	W. D. DEUPREE,
W. P. ROBERTSON.	

FACULTY.

GEO. W. JARMAN, LL. D., CHAIRMAN,
Professor of Latin and Greek.

HENRY C. IRBY, A. M.,
Professor of Pure and Applied Mathematics.

*

Professor of English.

THOS. J. DEUPREE, A. M., M. D.,
Professor of Natural Science and Principal of the High School.

ALBERT H. NEWMAN, A. M.,
Professor of Intellectual and Moral Philosophy, and Modern Languages.

G. C. SAVAGE, M. D.,
*Lecturer on Anatomy, Physiology and Hygiene, and Dean of the
Faculty.*

* This Professorship will be filled in due time.

❖ALUMNI.❖

<i>CLASS OF 1876.</i>	<i>PROFESSION</i>	<i>RESIDENCE.</i>
CHARLES A. BROWN, M. A.,	Attorney,	Jackson, Tennessee.
HENRY W. BROOKS, M. A.,	Minister,	Little Rock, Ark.

ORGANIZATION.

UNIVERSITY HIGH SCHOOL.

In this school the course of study is pursued on the same general principles adopted in the best Public Schools of our cities, and students are prepared specially for the Mathematical, Classical and Scientific Departments of the University. The same course of study is required of all, and great importance is attached to *thoroughness*, as a mistake here is too frequently destructive of a proper understanding and appreciation of the branches pursued in the University. A thorough mastery of the elementary principles taught in this Department underlies success in other Departments, and subsequent study can rarely, *if ever*, atone for deficient preparation.

The classes, in all the studies embraced in this Department, are graded; and no pupil is allowed to advance from one grade to another without passing a satisfactory examination on all studies preceding the grade he proposes to enter.

Students pursuing studies of this Department are under the same general principles of government as other students of the University. They receive instruction from the Principal of the High School, his Assistants, and, in certain instances, from Professors of the University.

The studies pursued in this Department embrace English Grammar, Composition, Word Analysis, History, Mental Arithmetic, Written Arithmetic, Latin Grammar and Reader, Greek Grammar and Reader, Elementary Algebra, University Algebra, Cæsar, Ovid, Xenophon's Anabasis and Language Lessons.

DEPARTMENT OF LITERATURE AND SCIENCE.

The Department of Literature and Science comprehends the seven University Schools which are denominated as follows:

1. Latin. 2. Greek. 3. Mathematics. 4. Moral Science. 5. Natural Science. 6. English. 7. Modern Languages. These Schools are *elective*, and each independent of another; the Faculty, however, reserving the right to dictate a course of study for those students whose parents or guardians have not specially prescribed what branches shall be pursued.

There is no prescribed time for any one to complete the required course of study in any School of the University. This will greatly depend upon his previous preparation, his capacity and faithfulness as a student. The proficiency is shown by the character of the written examination as the only basis for promotion from one class to another.

Students graduating in any one of these Schools will be entitled to a certificate of graduation in that School.

To obtain admission to any one of the above Schools, the applicant must pass a satisfactory examination on the branches taught in the High School; and, if he proposes to enter an advanced class in any School, he must pass a satisfactory examination on all studies previously pursued by that class.

No student can be admitted as a candidate for matriculation unless he presents satisfactory testimonials of good moral character; and, if he should come from another College, or an Academy, he must present a certificate of dismissal from the Institution last attended.

It is impossible to insist too earnestly on the importance of prompt entrance at the opening of the session with the class on the studies of the term; and of continuance until the subjects are finished. The absence of a few days or weeks at the beginning of the session produces serious embarrassment to the student, and can rarely be made up during the entire term.

Young men from abroad, intending to become students, are expected to report to the Chairman of the Faculty within twenty-four hours after their arrival. Failing to do so without satisfactory reasons, they may be excluded altogether.

I.—THE SCHOOL OF LATIN.

Applicants for admission into this School must be thoroughly acquainted with the paradigms of *declension* and *conjugation*, familiar with the fundamental principles of Syntax, and must have read the Reader, Cæsar and Sallust, or their equivalents. They must also have pursued some elementary treatise on Latin Prose Composition.

Those unable to enter upon the text-books prescribed for the *first year* in the School of Latin, will take a preparatory course under the direction of the Professor in charge of this school.

The studies in the University course, for a period of three years, besides *parallel* reading, are as follows:

JUNIOR.—Latin Grammar, Cicero's Orations, Livy and Latin Prose Composition. *Five hours a week.*

INTERMEDIATE.—Horace, Cicero De Officiis and Latin Prose Composition. *Five hours a week.*

SENIOR.—Juvenal, Tacitus Agricola and Annals, Latin Prose Composition and History of Roman Literature. *Three hours a week.*

The English pronunciation is carefully taught and strictly followed in the class-room. The advanced classes are also taught to use the so-called Roman and so-called Continental methods.

II.—THE SCHOOL OF GREEK.

For admission into this School, applicants must be familiar with the principles of Greek Grammar, especially *declension* and *conjugation*, and must have passed entirely through some Greek Reader and two books of Xenophon's Anabasis. Where applicants are unable to enter upon the text-books prescribed for the first year, they will receive the special attention of the Professor in charge of this School.

The studies in this School embrace a period of three years, and are as follows:

JUNIOR.—Goodwin's Greek Grammar, Homer's Odyssey, Greek Composition, and Memorabilia of Socrates. *Five hours a week.*

INTERMEDIATE.—Alcestis of Euripides, Herodotus, Demosthenes, on the Crown, and Greek Prose Composition, *Five hours a week.*

SENIOR.—Plato's Apology and Crito, Antigone of Sophocles, and History of Greek Literature. *Three hours a week.*

Special attention is given to the use of the accent from the beginning. Blackboard exercises in Declension and Conjugation, etc., are required daily.

In the translation of the classic authors, a close and critical examination is made of the text assigned for reading, the peculiarities of the author's style are brought out, and the contents of the language, as illustrated in the light of Comparative Philology, are constantly discussed.

III.—THE SCHOOL OF MATHEMATICS.

In order to enter this School, the applicant must be thoroughly acquainted with the principles of the most advanced Arithmetics, including the Metric System, and must have completed Algebra. Where this is not the case, the Professor in charge of this School either gives or superintends instruction in the above named studies.

The studies of this School embrace a period of three years, and are as follows:

JUNIOR.—Plane and Solid Geometry. In addition to the textbook, the student will be required to do sufficient work to apply the principles of Geometry and the Algebraic solution of Geometrical problems. *Five hours a week.*

INTERMEDIATE.—Plane and Spherical Trigonometry and Surveying. Navigation optional. Surveying is thoroughly taught; the student being required to do enough *field work* to become perfectly familiar with the use of instruments, and, indeed, to be a Practical Surveyor. *Five hours a week.*

SENIOR.—Analytical Geometry, Differential and Integral Calculus, with practical work showing the application to Analytical Mechanics, etc. *Five hours a week.*

Throughout the course of instruction in this School lectures will

be given on the history and logic of Mathematics, and the student will be required to give lucid demonstrations of principles, close processes of reasoning, with a view to the acquisition of the highest discipline and training of the mental powers.

IV.—THE SCHOOL OF NATURAL SCIENCE.

The growing interest in this department of science calls loudly for the most extended research and investigation. The means and appliances for the successful prosecution of the studies in this School are being enlarged annually.

This School embraces three distinct departments: 1. Physical Geography, Physics, and Astronomy. 2. Chemistry. 3. Geology.

JUNIOR CLASS.—Physical Geography.

Text-Book: Maury's Physical Geography.

INTERMEDIATE.—Physics.

Text-Book: Stewart's or Todhunter's Physics.

SENIOR.—Mechanics and Astronomy.

Text-Book: Todhunter's Mechanics and Loomis' Astronomy.

2. CHEMISTRY.—The Class in *General Chemistry* hears three lectures each week throughout the session.

This course embraces the description of the elements and their compounds, inorganic and organic. The lectures are illustrated by suitable experiments.

Text-Book:—Roscoe's Elementary Chemistry.

INDUSTRIAL CHEMISTRY.—This Class is designed for those students who wish to study in detail the chemical principles and processes specially concerned in the more important arts and manufactures, upon which, in a large measure, the development of the natural resources of the country depend.

Subjects considered are: The production of *materials of very general application*, including the metallurgy of iron, copper, lead, tin, gold, etc.; the process of electro-plating, manufacture of sugar, purification of drinking water, etc.; manufacture of mortars and cements, etc.; manufacture of illuminating gas, etc.. etc.

Text-Book:—Wagner's Chemical Technology.

AGRICULTURAL CHEMISTRY.—In this course the chemical and

physical properties of soils, of the atmosphere, and of plants; chemistry of the processes of vegetable life and growth, the composition and chemical preparation of fertilizers, etc., will be discussed.

GEOLOGY.—Text-Book: Dana's Geology—frequent reference being made to Hugh Miller's "Testimony of Rocks" and "Foot-Prints of the Creator."

V.—THE SCHOOL OF ETHICS AND LOGIC.

Applicants for this school must have completed the *First* and *Second Year* in the School of English; otherwise no special preparation is necessary. The course of study embraces a period of two years, and the following subjects are studied and discussed—the instruction being partly by text-books and partly by lectures:

JUNIOR.—Logic and Metaphysics. *Five hours a week.*

SENIOR.—Moral Philosophy, and Butler's Analogy of the Christian Religion. *Four hours a week.*

VI.—THE SCHOOL OF ENGLISH.

In this School are taught the principles of the English Language, its origin, growth, and development from the Anglo Saxon, the same prominence being given to it as to the Latin and Greek.

To be admitted into this School the applicant must have studied English Grammar at least for a term of five months. The Professor in charge of this School will not confine himself to the text-books, but will use them mainly to direct the course of instruction, supplementing by lectures whatever may be lacking or objected to in the authors used. In the course prescribed below, the odd numbers indicate what will be studied the first half of the year, and the even numbers the second half. The studies of this School embrace three years as follows:

JUNIOR.—1. Whitney's Essentials of English Grammar. 2. Green's Analysis of the English Language. *Five hours a week.*

INTERMEDIATE.—1. Punctuation, Capitalization, Syntactical Structure of Shakespeare's Julius Cæsar, and a weekly criticism

of some author or subject pursued. 2. Rhetoric, Bain's; Tenney's; Grammatical Analysis, and weekly criticisms continued. *Five hours a week.*

SENIOR.—History of English Literature, Taine's; and March's Method of Philological Study, and Trench on the study of Words. *Four hours a week.*

VII.—THE SCHOOL OF MODERN LANGUAGES.

The object of the Professor in this Department is to give the students a brief history of the countries speaking these languages, and, by a course of lectures, a fair knowledge of their literatures. The prime object is to enable the scientific student, at the end of his course, to read any works in modern German and French.

For admission into this School applicants must have completed the *first year* in the School of English. In this School the student is taught the principles of French, and German Grammar, and the use of idioms so far that he may be able to read authors in these languages with ease. The *Theoretical* and *Practical* methods are carried on continuously.

Special reference is had to the critical examination of the comparative *Philology* and the general correlation subsisting between the *English* and the languages spoken on the continent of Europe.

The studies pursued in this School embrace a period of two years, as follows:

FRENCH.

JUNIOR.—Fasquelle's Introductory French Course, and Reader, and Telemaque. *Four hours a week.*

SENIOR.—Moliere, Racine, and Corinne. *Three hours a week.*

Parallel reading is required in the Senior Year; the reading of extracts from French journals encouraged. Such measures are adopted, from time to time, as will maintain a lively interest in the pursuit of the idioms and the literature of the language. To this end the class, in place of Telemaque, will read, the approaching session, *Roman d'un Jeune Homme Pauvre*, par Feuillet.

GERMAN.

JUNIOR.—Whitney's Grammar and Reader. *Four hours a week.*

SENIOR.—Schiller's Jungfrau Von Orleans. *Three hours a week.*

Weekly exercises in composition in all classes.

Anatomy, Physiology and Hygiene are taught by lectures and questions in connection with text-books, a natural skeleton and diagrams. All students are required to take this course and are thus made acquainted with the structure of the human body and the laws for promoting and maintaining their health.

Text-Books.—Hutchinson's Physiology and Hygiene, and Huxley's Elements of Physiology.

DEGREES.

The regular degrees conferred by the University are as follows:

1. The Degree of MASTER OF ARTS is conferred on students who graduate in all the Seven Schools of the Department of Literature and Science.

2. The Degree of BACHELOR OF ARTS is conferred on those who graduate in the Schools of Latin, Mathematics, Natural Science, Moral Science, English, and German and French, or their equivalents.

3. The Degree of BACHELOR OF PHILOSOPHY is conferred on those who graduate in the Schools of Mathematics, Natural Science, Moral Science, English, and German and French.

Besides these Regular Degrees, a student who pursues the course of study of any School, and passes a satisfactory examination, is entitled to a degree of Graduate in that School.

No Degree will be conferred on any student of the University unless he shall have sustained a good moral character, and settled all College bills.

RELIGIOUS CULTURE OF STUDENTS.

In connection with the discipline of the intellect, it is the purpose of the University to inculcate a pure morality and the great fundamental truths and doctrines of the Christian religion. To this

end, the public exercises of each day are opened with the reading of the Scriptures, singing and prayer; and on the Sabbath the students of the University are required to attend the public worship of God in some of the churches of Jackson. All are earnestly urged to attend regularly some Sabbath School of their own choice in the city. Lectures are delivered in the University Chapel at stated times, by the members of the Faculty and ministers of the several denominations in Jackson, on subjects touching the great moral duties of man.

LITERARY SOCIETIES.

There are two Literary Societies connected with the University: "Calliopean," and "Appollonian." These Societies have halls sufficiently large for all practical purposes, in which they hold weekly meetings for improvement in debate, declamation, composition and criticism, and for the study of parliamentary law. The students of the University are encouraged to connect themselves with one or the other of these Societies, and thus early in life learn to argue connectedly upon any subject brought to their attention and to acquire the power of thinking and reasoning without embarrassment.

Each Society has its own library and furniture adapted to its wants. The University library is also open to all the students on stated days.

BENEFICIARIES.

Students of all denominations having the Gospel Ministry in view, when properly recommended by their churches, and having license from the same to preach the Gospel; also the sons of Ministers deriving their entire support from the active work of the ministry and unable to pay the regular fees, are admitted to the University free of charge for tuition. Assistance in paying for their board has been rendered to young men in the past, and like aid, in certain instances, will be extended to young men having the ministry in view, and approved by the Board of ministerial Education. Those desiring such assistance should correspond with the Chairman of the Faculty.

LOCATION.

The Southwestern Baptist University is located at Jackson, Tenn., at the crossing of the Mobile & Ohio, and Chicago, St. Louis & New Orleans Railroads. Jackson is not surpassed by any inland city in the Southwest for the healthfulness of its climate, the public spirit and enterprise of its citizens, and the cultivation and refinement of its society. Young gentlemen connected with the University here find a cordial welcome to the first families of the city, in so much that the longings for home are soon forgotten by reason of the generous hospitality extended to them here.

GENERAL REGULATIONS.

Students in the higher Departments of the University are expected to study in their rooms at their boarding-houses, and to report to their Professors for recitation or lectures at appointed hours, according to the Schedule of Recitations, which is fixed at the beginning of the session. They are not permitted to visit the business portions of the city during study hours, nor to leave their rooms at night except by permission of some member of the Faculty.

A record of every recitation, or absence excused or unexcused, of each student is kept, and from this record his standing is determined, and a circular containing the same is sent to his parent or guardian, showing his deportment, attendance or non-attendance upon recitation, lectures, and other college duties, together with any other remarks the case may require. Reports will be sent to parents or guardians in the middle and at the end of each session of five months.

In marking and grading, a scale of ten (or one hundred) is used for simplicity and convenience by the entire Faculty, and when the figures are translated into ordinary language they have about the following meaning: 100 is perfect; 90 excellent; 80 very good; 70 good; 60 barely passable; below 60 means that a student is so deficient or imperfect as to be put back, or as not to be allowed to go ahead to more advanced studies. Conduct is also graded on the scale of 100; every student is, on entering, credited

with 100 as perfect, and all deductions from this ideal standard are caused by demerits. Each unexcused absence from University duty counts two demerits, and misconduct is demerited according to its aggravation.

DISCIPLINE.

The discipline is mild, but firm, and is directed to the establishment of correct habits and an elevated character. The University does not propose to become a reformatory institution for the eradication of vicious habits. If a student cannot be influenced by measures founded on principles of morality and gentlemanly propriety, or is habitually inattentive to the discharge of his duties, he will not be a desirable member of the University, and will be required to withdraw.

EXAMINATIONS.

Two regular examinations are held; the first at the close of the first term, ending in January, and the other at the close of the Collegiate year in June. The examinations are both oral and written, and together with the record of the recitation, serve to make up the standing of the student for the entire year. Any student failing to stand an examination with his class will not be allowed to compete for any prize or honor of the University.

TERMS AND VACATIONS.

There are two terms in each year. The first term for 1881-82, begins the *last Monday in August*, and continues twenty weeks; the second term begins on Monday after the close of the first term, and continues twenty weeks. Commencement day occurs on the first Thursday in June.

The regular vacation continues from the first Thursday in June to the opening of the fall term.

EXPENSES.

UNIVERSITY HIGH SCHOOL.

Tuition per term of twenty weeks:

First Division.....	\$15 00
Second Division.....	20 00
Incidental Fee.....	1 50

DEPARTMENT OF LITERATURE AND SCIENCE.

First year, per term of twenty weeks.....	\$25 00
Second and third year.....	30 00
Incidental Fee.....	3 00

All students of every character pay but once \$1.00 each, which is appropriated to furnishing the Reading Room with news-papers and magazines.

All bills for tuition must be settled in advance, and no student will be permitted to recite before matriculating. No portion of the tuition fee will be returned on account of *dismissal or withdrawal for any reason*, and no deduction will be made for absence arising from sickness, unless the sickness be protracted beyond one month.

Parents and guardians are *earnestly* requested not to furnish their sons or wards with unnecessary pocket change. All that is needed is just enough to pay for traveling expenses, tuition bills, the necessary text-books, and board for one month in advance. More than sufficient for the above wants may form, not only habits of extravagance, but may result in utter ruin to the young man and others besides. Patrons of the University should deposit with some member of the Faculty all sums of money necessary to meet the wants of their sons or wards, and forbid the opening of accounts with merchants and others. A lavish expenditure of money is wholly incompatible with good, faithful study.

It is deemed very important for parents and guardians to understand that, not including clothing and railroad fares, the entire expense of a student here for the Collegiate year of ten school months, should fall within one hundred and eighty five dollars.

If a student spends more than that amount, he should be called strictly to account. Indeed, the expenses of several of our best students have not exceeded one hundred and fifty dollars for the year. There is probably no institution in our country where equal advantages can be enjoyed at less cost.

BOARDING.

Boarding can be had in private families at \$10 00 to \$13 00 per month, everything furnished except washing, which is twenty-five cents per week.

Students are allowed to board only in such families as are recognized by the Faculty as suitable for boarding the students of the University. Whenever a change is proposed in the boarding-house, the student is required to notify the Faculty and obtain consent before making the change.

Persons intending to send their sons or wards are requested to correspond with the Chairman of the Faculty, with a view of securing suitable homes.

GENERAL PRINCIPLES OF GOVERNMENT.

Every member of this Institution is expected to conduct himself, in all his relations, with gentlemanly propriety, and in such a way as will best secure the object for which it was organized—the highest moral and intellectual training of those who enter it.

Each student, before matriculating, is furnished with a copy of the Laws of the University, which he is required to sign.

ANNIVERSARY EXERCISES.

1881.

May 29.—*Commencement Sermon,*

By Rev. T. J. Rowan, Memphis, Tenn.

May 30.—*Annual Celebration of the Calliopean Literary Society.*

Oration, by W. D. Powell, Tennessee. Subject: *Ideals.*

DEBATE. *Question:* "Are the influences which tend to perpetuate the Union of the United States more than those that tend to dissolve it?"

Affirmative—R. T. Yates, Arkansas, J. J. Taylor, Alabama.

Negative—A. P. Bourland, Arkansas, Ewel Noel, Tennessee.

Oration by F. Decourcy, Arkansas. Subject: *Architecture.*

Presentation of Medals to W. C. Muse and Geo. W. Jarman, Jr., by the President, A. J. McGee.

May 31.—*Annual Celebration of the Appollonian Literary Society.*

Essay, by W. T. Harris, Tennessee. Subject: *Hidden Truth.*

Oration, by C. S. Gardner, Tennessee. Subject: *Great Need of the South.*

Society Valedictory, by J. W. Blackard, Tennessee.

Presentation of Medals, by Hon. Howell E. Jackson, Tennessee.

June 1.—*Alumni Oration,* by Prof. J. W. Conger, Humboldt, Tenn.

Orations by the Graduates in the Degree of Bachelor of Arts.

J. F. Dean, Miss. Subject, *Little by Little.*

T. L. Fulbright, Tenn. Subject, *Materialism.*

F. L. Norton, Ky. Subject, *Development.*

G. W. Holmes, Tenn. Subject, *Lights and Shades.*

June 2.—Orations by the Graduates in the Degree of Master of Arts.

Geo. W. Jarman, Jr., Tenn. Subject, *Shortsightedness*.

W. C. Muse, Tenn. Subject, *Paganism*.

Conferring Degrees and Baccalaureate Address,

By the Chairman of the Faculty.

CLASS SONG.

Literary Address, by Col. D. W. Holman, Fayetteville, Tenn.

Subject, *Oratory*.

Honorary Degree of LL. D. conferred upon:

Prof. A. T. Barrett, Mary Sharp College, Winchester, Tenn.

Next Session will open Monday, August 29, 1881.

SECOND
ANNUAL ANNOUNCEMENT
OF THE
MEMPHIS
Hospital Medical College

—AND—
MEDICAL DEPARTMENT

OF THE
Southwestern Baptist University,

SESSION OF 1881 AND 1882.

COLLEGE BUILDING ON UNION AVENUE

IMMEDIATELY IN FRONT OF
MARINE AND CITY HOSPITAL,
MEMPHIS, TENN.

FACULTY.

W. E. ROGERS, M. D.,
Professor of Surgery—Clinical, Operative and Genito-Urinary.

B. C. HENNING, M. D.,
Professor of Principles and Practice of Surgery.

HEBER JONES, M. D.,
*Professor of Theory and Practice of Medicine, and Clinical
Lecturer on Diseases of the Throat.*

F. L. SIM, M. D.,
Professor of Obstetrics and Diseases of Children.

E. MILES WILLETT, M. D.,
Professor of Diseases of Women.

G. W. OVERALL, M. D.,
Professor of Physiology and Diseases of the Nervous System.

JULIUS WISE, M. D.,
Professor of Materia Medica and Therapeutics.

W. B. ROGERS, M. D.,
Professor of Anatomy—Descriptive and Surgical.

JULIUS FAHLEN, M. D.,
Professor of Chemistry and Toxicology.

A. G. SINCLAIR, M. D.,
Professor of Ophthalmology and Otology.

C. F. CARNES, M. D.,
Demonstrator of Anatomy.

W. E. ROGERS, M. D.,
Dean of Faculty.

Office 338 Main Street, corner Union, Memphis, Tenn.

CLINICAL ADVANTAGES.

Memphis has not only her permanent forty thousand inhabitants, from which the supply of clinical material is drawn, but a vast amount comes from the neighboring portions of Arkansas, Mississippi and Alabama. The poor and improvident who are stricken with disease in these localities flock to Memphis, as it is the nearest point at which hospital accommodations can be procured. In addition to all this, from its location, Memphis has a large transient population, constantly passing and repassing by river and rail in all directions.

With such a field as this, it can be imagined what excellent facilities are offered for clinical study. In addition to the City and Marine Hospitals, (located immediately in front of college building), where daily clinics will be held, the College Dispensary offers a broad field for study, as a number of patients are annually treated in this institution.

Daily clinics will be given in the clinical amphitheater, and in the wards of the hospital, by the various members of the faculty. The class will be divided into sections of four, and each section will, in rotation, be called upon in the presence of the class, and under the supervision of a professor, to diagnose and prescribe for cases. Weekly appointments will also be made in the same manner, of students to act as assistants to the dispensary physician, and they will, under his supervision, be required to treat cases and dispense medicines.

During the last course the following operations were performed before the class: Lithotomy, 1; Lig. of Femoral Artery for Aneurism, 1; Lig. of Ext. Iliac for Aneurism, 1; Ovariectomy, 1; Amputation of hand, 1, arm 1, leg 1; Castration, 2; Stricture of Urethra, 6; Tumors removed, 3; Circumcisions, 3; Sequestra removed, 3; Caries of Tibia, 1; Fistula in Ano, 3; Hydrocele, 1; Vesico Vag. Fistula, 1; Tapping for Ascites, 2. Removal of Sup. Maxilla, 1; Ext. Perineal Urethrotomy.

The following cases presented and treated before class: Coxalgia, Pott's Disease, Talipes, Dislocation of Humerus, Fractures, Frost, Stricture Œsophagus, Vesico Rectal Fistula. Applications of Plaster Bandage, Syphilis in its Various Stages, Herniæ.

BOARD.

Good boarding can be procured at from \$3.50 to \$6.00 per week. Students, upon arriving in the city, will consult their interests by calling upon the Dean of the Faculty, W. E. ROGERS, M. D., No. 338 Main Street, where all necessary information can be obtained in regard to suitable boarding, etc.

The street cars from all of the depots pass immediately in front of the Dean's office.

REQUIREMENTS FOR GRADUATION.

Candidates for the degree of Doctor of Medicine must have attained two courses of lectures—the *latter* in this college; must have attained the age of twenty-one years; and must be of good moral character. Each candidate must deposit, on or before the 15th day of February of the year of graduation, with the Dean of the Faculty, an original thesis upon some medical subject, and the graduation fee; the latter of which will be returned in case of rejection. And finally, he must pass a satisfactory examination upon all the branches taught in this college.

PRIZES.

As the custom of offering prizes for excellence in special departments has a tendency to direct the attention of students to the study of one or two branches to the neglect of the others, the Faculty have determined that prizes shall only be given for general proficiency, and reports of clinics. The following are the prizes offered:

First Prize for General Proficiency—One Hundred Dollars.

Second Prize for General Proficiency—Fifty Dollars.

Third Prize for General Proficiency—Gold Medal, valued at \$25.00.

Prize for Best Report of Surgical Clinic—Gross Pocket Case of Surgical Instruments. *

Prize for Best Report of Medical Clinic—Fine Case of Instruments for Physical Diagnosis.

*This is offered by J. P. Alban, the instrument dealer of this city.

EXPENSES OF SCHOOL.

Dissecting Material.....	Free.
Matriculation Fee.....	\$ 5 00
Demonstrator's Ticket.....	10 00
Professor's Ticket (full course).....	50 00
Graduation Fee	30 00

Students may, after matriculating, attend any one or more of the course of lectures, by paying \$10.00 for each ticket. Graduates of other recognized Medical Colleges, after three years, are required to matriculate only.
